Human Genetics

Human Genetics was founded in 1964 and published up to Vol. 30 as Humangenetik — Human Genetics — Génétique humaine

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $ 0.20 per page, or a minimum of US $ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-6717, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of Volume 86

Abbreviations in parenthesis refer to the following sections: (E) Editorial; (R) Review article; (O) Original investigation; (SC) Short communication; (CC) Clinical case report; (CO) Case observed; (RG) Rare genetic variant register; (DV) DNA variants; (L) Letter to the editors

Abbal M → Ghanem N
Abbas N, Novelli G, Stella NC, Triolo O, Corrado F, Fellous M, Chery M, Gilgenkrantz S, Dallapiccola B: A 45,X male with molecular evidence of a translocation of Y euchromatin onto chromosome 1 (SC) 94
Abe K → Deng H-X
Ahrens P → Alitalo T
Albertsen HM → Alitalo T
Alcorn DM → Zhu D
Alexandre D → Keyeux G
Alitalo T, Kruse TA, Ahrens P, Albertsen HM, Eriksson AW, Chapelle A de la: Genetic mapping of 12 marker loci in the Xp22.3–p21.2 region (O) 599
Alves ZMS → Palatnik M
Anderson LA → Lebo RV
Andresen BS → Gregersen N
Angell RR: Predivision in human oocytes at meiosis I: a mechanism for trisomy formation in man (O) 383
Angeneydt F → Dianzani I
Anglard P → Lerman MI
Antonarakis SE → Heizmann C
Antonarakis SE → Zhu D
Anvret M → Archidiacono N
Anvret M, Nordenskjöld M, Stolpe L, Johansson L, Bröndum-Nielsen K: Molecular analysis of 4p deletion associated with Wolf-Hirschhorn syndrome moving the "critical segment" towards the telomere (O) 481
Arakawa K → Yamakawa K
Archidiacono N, Lerone M, Rocchi M, Anvret M, Ozcelik T, Francke U, Romeo G: Rett syndrome: exclusion mapping following the hypothesis of germinal mosaicism for new X-linked mutations (O) 604
Archidiacono N → Rocchi M
Arnaiz-Villena A → Timón M
Arnold HH → Gessler M
Aso Y → Shinohara M
Aubert JP → Nguyen VC
Aulehla-Scholz C → Zygulska M
Aurias A → Mamuris Z

Babron M-C → Bonaïti-Pellié C
Bach G → Zlotogora J
Back E → Voiculescu I
Bæra R → Ryberg D
Bailly J, MacKenzie AE, Leblond S, Korneluk RG: Assessment of a creatine kinase isoform M defect as a cause of myotonic dystrophy and the characterization of two novel CKMM polymorphisms (O) 457
Bailly P → Chérif-Zahar B
Baker E → Wilson PJ
Bakkeren J → Oost BA van
Bal J, Maciejko D, Mazurczak T, Potocka A, Krawczak M, Reiss J: Frequency of the cystic fibrosis mutation ΔF508 in Poland (L) 329
Bannister WH → Kutlar F
Barbacid M → Martinerie C
Barbi G → Kennerknecht I
Barbi G → Wöhrle D
Barclay L → Martin RH
Bardoni B → Caiulo A
Bardsley WG, McMurray BP, Robson A, D'Souza S, Taylor GM: Analysis of gene-dosage effects on the expression of CD18 by trisomy 21 lymphoblastoid cell-lines using a statistical model to fit flow cytometry profiles (O) 181
Barratt TM → Jadresic L
Battistuzzi G → Calabrò V
Baumgartner ER → Kennerknecht I
Beckers L → Porfirio B
Beggs AH, Koenig M, Boyce FM, Kunkel LM: Detection of 98% of DMD/BMD gene deletions by polymerase chain reaction (O) 45
Belka C, Greger V, Zabel B, Horsthemke B: No evidence for sequences structurally related to the RB1 gene in the human genome (O) 401
Bellet H → Claustres M
Bellis M → Marçais B
Benirschke K → Cunniff C
Benítez J → Fernández E
Benmamar D → Timón M
Benoit P, Gross MS, Frachet P, Frézal J, Uzan G, Boucheix C, Nguyen VC: Assignment of the human CD9 gene to chromosome 12 (region P13) by use of human specific DNA probes (O) 268
Béres J → Timár L
Berger R → Rousseau-Merck M-F
Berger R → Seite P
Berger W → Cremers FPM
Bernasconi P → Raimondi E
Bernheim A → Nguyen VC
Berrios S, Fernández-Donoso R: Nuclear architecture of human pachytene spermatocytes: quantitative analysis of associations between nucleolar and XY bivalents (O) 103
Berthelon M, Caillaud C, Rey F, Labrune P, Melle D, Feingold J, Frézal J, Briard M-L, Farriaux J-P, Guibaud P, Journel H, Le Marec B, Maurin N, Nivelon J-L, Plauchu H, Saudubray J-M, Tron P, Rey J, Munnich A, Lyonnet S: Spectrum of phenylketonuria mutations in Western Europe and North Africa, and their relation to polymorphic DNA haplotypes at the phenylalanine hydroxylase locus (O) 355
Bertolini S → Lelli N
Bérubé D → Seralini G-E
Beutler E, Kuhl W, Ramirez E, Lisker R: Some Mexican glucose-6-phosphate dehydrogenase variants revisited (O) 371
Bianchi P → Caiulo A
